SPECIFIC SERVICES

- Project Monitoring
- Forensic Analysis for due diligence
- Restructuring / Insolvency
- Distressed Property
- Corporate Finance
- Project Bank Accounts

PROJECT MONITORING

In the current climate the project funder needs to be assured that payments made equate fairly to the work done and value added to a project and that issues involving increased costs and delays are identified as soon as possible and dealt with effectively. Driver offer a range of these services worldwide.

▀▀ Risk management is a commonsense approach to dealing with the unknown, to ensure a proper account is taken of all foreseeable risk. ▀▀

FORENSIC ANALYSIS FOR DUE DILIGENCE

During the due diligence process it is often the case that a detailed forensic analysis is required in respect of the finances that relate to a range of projects that the business in question is involved with. Driver have an experienced due diligence analysis team.

RESTRUCTURING / INSOLVENCY

When insolvency occurs, or a business needs to be re-structured, a careful review of each project the business is involved in, an assessment of risks and opportunities is an essential part of recovering money and reaching a robust and workable solution. Driver have many years' experience of professionally supporting these situations.

DISTRESSED PROPERTY

Often after a dispute or the insolvency of one party, the property that was the subject of a contract can be left in an incomplete or even dangerous state. Driver have a team of construction specialists capable of taking control of a project and rapidly assessing the best way of delivering completion to achieve the client or funder's agreed business case.

CORPORATE FINANCE

Banks and Lenders involved in providing corporate finance will naturally require detailed analysis and review of the current position of a given business and its risks and opportunities profile to support the business case. A number of Driver consultants have many years of experience and the key skills required to support corporate finance applications and decisions.

▶ ▶ Many years experience of working with Corporate and Finance Sector clients helps us give a unique insight into the service our clients need. ▶ ▶

PROJECT BANK ACCOUNTS

Project Bank Accounts are an innovative way of dealing with the payments due to contractors and specialists under various forms of contract, that require careful thought in both set up, administration and the drafting of contract provisions that mirror the agreed mandate. Driver have consultants able to advise on each stage of the process.
