

driver PROJECT SERVICES

PROJECT DELIVERY

Driver Project Services is the project delivery arm of Driver Group and specialise in the development and delivery of customer focussed project control solutions.

These can be provided at project inception stage, through design, planning, construction, commissioning and into the beneficial operation and maintenance phases of our clients built assets.

UNIQUE OFFERING

Our project delivery professionals, working across the Construction, Process and Infrastructure industries, have in-house access to leading industry experts in the fields of Quantum, Planning and Contract.

With all skills and expertise sourced from within one organisation and coordinated through our management structure, our customers are assured that their project has a clear project control strategy which is then actively and consistently delivered.

SPECIFIC SERVICES

- Commercial Management
- Planning & Programming
- Measurement / BQ Preparation
- Cost Plans / Cash Flow Forecasts
- Procurement
- Contract Administration
- Change Control
- Interim & Final Account Certification

OUR CLIENTS
